

NuFlex 13oz Banner Snow White Matte

NuFlex 13oz Matte Banner is the standard banner material for producing temporary outdoor and indoor signage. The matte finish is perfect for applications where glare is a concern.

Applications

- Banners
- Billboards
- Frontlit Signage
- Temporary Signage
- Outdoor Use

Metamark MD5 Adhesive Back Clear Vinyl

Metamark MD5 is a premium grade polymeric calendered self-adhesive vinyl for printers using solvent inks. The high quality film, release paper and adhesive, combined with Metamark's distinctive coating technology provides outstanding print performance. MD5 can be used for interior and exterior application onto flat or slightly curved surfaces, such as vehicle graphics, retail signage and window graphics. The solvent-based adhesive eliminates problems of milky residue during wet application, of particular concern when applying onto glass.

Applications

- Vehicle Graphics
- Frontlit Signage
- Backlit Signage
- POP & Posters
- Temporary Signage
- Retail Signage
- Window Graphics
- Interior & Exterior Use

LexJet Solvent Indoor/Outdoor Poster Paper (10 Mil)

Product Description

LexJet's Indoor/Outdoor Poster Paper is engineered specifically for solvent-based inkjet printers. This is a latex-saturated, wet strength paper that's perfect for short-term indoor and outdoor graphics. This versatile product also meets the requirements for an economical wall covering solution.

Features

- Tear-resistant
- Specially coated for increased dot control
 - Designed for solvent printers
 - Smooth, luster finish
 - No lamination required
 - Up to six months outdoors
 - Class A flame spread certification

Can be applied with standard wallpaper paste

NuFlex 10mil Premium Textile Banner

NuFlex Premium Textile Banner is a 10mil, specially developed polyester-based fabric with a smooth acrylic coating on both surfaces that optimizes ink adhesion and results in vibrant color. The top coat is waterproof and is formulated to achieve consistent image quality with optimal color reproduction with the feel of original art. When used with a banner stand, the product will have nice tight tension and will stay absolutely flat. Hemming is not necessary.

Applications

- Banners
- Frontlit Signage
- POP & Posters
- Roll-Up Banners
- Table Covers
- Flags

Features

- Very Tear-Resistant
- Indoor & Outdoor Use

CLEAR FOCUS One Way Vision™ films allow stunning graphics on one side and a clear, unobstructed view from the other. Virtually all glass surfaces now have the potential for maximum visual impact. CLEAR FOCUS is the perfect window-graphics media for outdoor advertising, including vehicle and building wraps, POP, retail and commercial window signage, corporate identity and much more.

Benefits

- Creates new, innovative media space.
- Allows printers to diversify their printing capabilities and expand their customer base for greater profitability.
- Offers cutting-edge graphics technology that gives advertisers and printers a competitive advantage.
- Allows premium ad placement for high-profile advertising.

Features

- Among the most durable window films in the industry.
- Two perforation sizes and patterns, with up to 50% of the film perforated to achieve the desired image resolution and one-way visibility.
- Clear pressure-sensitive adhesive and solid release liner.
- Easy to print, install and remove.
- Reduces heat and glare from the sun.
- Enhances security and privacy.
